There is a lot to say about GHS Soccer, but I am not qualified to say it. I suggest going back to several of the earlier new sletters and have a look at the w riting of Peter Hens and John McLane.

Not too sure about this one either. But, I can remember having some involvement in trying to clear the bar in the running high jump. I couldn't get much spring out of these legs. I remember we jumped head first back then and today they "lay over" the bar backwards.

Looking at these old photos, I find it quite remarkable that we all have lived through so many technological changes. The clothing, or "uniforms" worn, is as dated as the black and white photography. There is not one of us who looks like a teenager and the general appearances speak of the sixties. All this stuff "looks old". There are no computers, cell phones, headsets, transceivers, or helmet cams.
