New Kids on the Block

David **AVANN** . Phoenix . AZ
avandpddd@msn.com

Jane Benjamin, the Chief Detective of the **ghs 1962 posse** has been active and successful in rounding up a few stray "dogies". This week's crop includes two eMail accessible "New Kids".

Douglas **MOROSO** . Singer Island . FL
djmoroso@bellsouth.net

Listed Among the Missing

As the snail mail continues it's slow process across the "map", more ripples settle back on the shores of Tod's Cape Cod and Gene Davino' doorstep. He is getting more than his fair share of "return to sender" or "inadequate address". This week's list is the largest yet, and includes, Patricia **BARR**, James P. **LENIHAN**, Jeanette **LATOSZ** Vossler, Linda **ANDERSON**, Russell **MONAHAN**, Arnold **ALBERO**, Charlotte **NOVAK** Greenaway, Douglas **MOROSO** and David **AVANN**. As you can see by the Photos above and below, that Jane has been very busy and has found several of the above. We are open to "advice" from anyone, who may have seen these persons... there continues to be no reward or bounty.

Some Are Found Again

Jane Benjamin writes: I've had some success, I left a message on Ann Coulter's voice mail, which was the same number we had listed. Did the invitation go out to Washington Street or the PO Box? My guess is that the PO Box would be more successful. I'll keep you posted. In the 2001 GHS Directory, James Lenihan is listed in Clearwater, FL . A reverse search shows his phone number as being attached to his address, but is it listed in a different name - H. M. Mitchell. Maybe it is a relative or something. I'd give it a try. I'm glad the email for David Avann worked out.

Regarding the mysterious Charlotte NOVAK Greenaway (or maybe Pucci) - I tried the phone number that is still listed as being current for her and got a tenant. She couldn't find Charlotte's number or address but gave me the name of the realtor that handles it, so I will pursue that. Maybe he will volunteer info or take a message or forward a note. Apparently all of the listings for her are in a Pocono resort community, so maybe she has become a real estate mogul. Stay tuned.

Jane Can Find Just About Anyone She's Good

Penny **HAYMES** Cox . Boulder . CO
vivipenny@aol.com

I'm wondering, are we locating GHS folks from the "shoulder" classes, whether, they graduated or not? If so, has anyone found Prog (Hampton W.) Howard? Last I heard he was an attorney in Peterborough, NH. I corresponded with his mother, with whom I was quite close, until she passed away a few years ago. She was Thirza Howard, and was with the Guidance office, I think for the whole public school system. Don't remember exactly. A wonderful and talented woman. I lost track of Prog. He was in the 62 chorus, perhaps even late 61. Madrigal Singers and Witchmen. He was in the class behind us, but graduated from the Hill School, then Dennison University. Just wondering.

Jane **BENJAMIN** Sheen . St. Thomas . VI
jbsheen@islands.vi

I believe this is the correct information for Prog Howard:

Hampton W. **HOWARD**
Jarmany Hill Road
Peterborough, NH 03458
603-924-3938

Fortunately, with a first name like Hampton, the search is a bit easier. Penny, this would correspond to what you thought.

Opening North Street School

George **DEVOL** . New Canaan . CT
Gdevol3@aol.com

I'd love to have a copy of the opening of North Street. I actual remember the day. It was quite exciting to have a "brand new" school (even though I think Julian Curtiss was only about 6 or 7 years old at the time). I remember taking the bus and then when we got there the doors weren't opened as yet. I remember Mike Schreder and I being the first ones through the doors when they were opened.

I remember "silly" things. North Street had two Janitors, one was named Frank (the tall one I recall), don't remember the others name, but he was a nice guy too. The "matron's" name was Millie (I told you I remember odd things).

I really enjoyed the 4 1/2 years at North Street. We all got along so well and had a lot of fun (along with having good teachers).

Do you remember a girl in our class that made the move to North Street that March, but wasn't in our class when 4th grade started. Her name was Lulu Walker, I think she lived in Rock Ridge. I remember the teacher (Mrs. Miles) telling us that she suddenly died after getting polo shortly before the new school season began. I remember her as being short, cute and kind of a fun girl. Do you remember her at all? I wonder if she was related to the Bush's at all, what with Walker being the maiden name of George H.W. mom and living nearby in Greenwich.

Do you have a copy of the yearbook or just the class photo. I'll have to give Clark a call (we talk three or four times a year) to see if he still has his to make some copies. I recall seeing at his mom's house about 12 or 13 years ago, but she moved a couple of times since. I remember under our pictures they asked us "what we wanted to be", and "what we would be" and my (wise-guy) answer was "to be a bum" and "will be a bum" - Hey I think everything turned out ok, I'm now a retired "bum"

Marion asked to forward this to you. I'm in the "Social Studies" fist on left, Mike Schreder in center back. On the "Music" page, Marion is first on left

What Is An American School

It is a building, large or small, planned with consummate care by citizens, educators, and architects; built with greatest competence by the builder so that the completed structure might be a useful and permanent instrument of learning.

But an American School is much more:

It is the laughter and play of little children as they first enter its doors, glancing back for a moment at a mother reluctant to let them go, and then running forward into a new world.

It is the joy of discovery that the child first feels as he learns to understand the magic of words and numbers, and like Aladdin of old, opens the mystic doors of storyland.

It is the faces of children as they salute the flag, or sing America, or bow their heads in prayer to a common God.

It is, of course, learning some things not so pleasant, like drill on multiplication table, and recopying compositions, and staying after school, and saying we were sorry — we didn't think.

It is the playground on a windy autumn day as we run a race, or the crack of the bat on the first greenning days of spring, a mingled odor of horsehide and crushed new grass.

BUT AN AMERICAN SCHOOL IS MUCH MORE:

It is a place where we learn to know and to love our country, to ride again with Paul Revere, to fight with Sam Houston, to sorrow with Lincoln, to brave the future with Eisenhower.

It is here that we learn to value our freedoms, of speech and religion and free assembly, to measure the achievements of our nation, to scorn the weakness of those who would degrade or debase it, to dream of new undertakings and enterprises which will ennoble it.

It is here we learn to work democratically with our fellow citizens, to appreciate the goodness of all races and religions, and to live in the brotherhood of men.

May this school, like so many others, be a treasure house for youth, a prized possession of our community, and a safeguard to our democratic nation.
